

OK-VISE

Multi-Rail System

Precision that holds – Performance that lasts

 **MADE IN FINLAND**

OK-VISE® MULTI-RAIL SYSTEM

One System – A World of Possibilities

Reduce setup time and streamline manufacturing processes with the OK-VISE® Multi-Rail System

The Multi-Rail System is a modular, high-precision fixturing solution that easily adapts to different workpiece sizes. Its reusable components help reduce fixture costs and increase production flexibility. Thanks to quick reconfiguration and support for multiple parts per cycle, it minimizes setup time and improves machining access — often requiring only two setups.

OK-VISE Original LOW-PROFILE CLAMP “Small in Size - Giant in Performance”

- Up to 90 kN of clamping force
- Repeatable and accurate clamping force
- Various models available

BASE RAIL

- The “base” for the fixture
- Quick and easy repositioning of the components
- Rail lengths from 100 mm up to 850 mm

STOP MODULE

- Locates the workpiece with $\pm 0,02$ mm accuracy
- Various models available

SIDE GUIDE

- Locating the workpiece in sideways

PARALLEL

- Lifts the workpiece to the required height

Why machine shops are investing in Multi-Rail?

- 1 Faster setup, more uptime**
Switch between workpieces quickly and keep your machines running longer
- 2 One system, many jobs**
Easily adapts to different part sizes and shapes with reconfigurable modules
- 3 Machine multiple parts in one setup**
Lower cycle time per part and improved machine utilization.
- 4 Scales up with your needs**
Expand and adjust as your production grows —no need to start from scratch.
- 5 Precision you can trust**
Ensure consistent machining quality with high-accuracy fixturing.

Find the right size for you application

Multi-Rail RM *All rounder!*

Multi-Rail RL *Maximize the workspace!*

Multi-Rail RH *For heavy use!*

OK-VISE® FIXTURING CONCEPT

Modular and dedicated fixture solutions
for evolving production

OK-VISE offers workholding solutions to meet the growing and evolving demands of modern manufacturing. Our services and expertise ensure effective solutions, delivered through our international partner network.

OK-VISE fixturing components are known worldwide as core components of any modern workholding system. In the machining industry the OK-VISE stands for ultimate quality.

A wide selection of information about our products are easily obtained from our website at: www.ok-vise.com

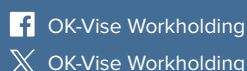

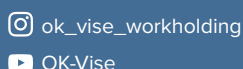

Trusted system you can grow with

"Modular OK-VISE workholding has proven to be excellent choice. This workholding concept enables us to clamp 95% of our product range. Each year we need around 900 different fixtures, all of which can be easily and quickly built using the OK-VISE Multi-Rail System."
